VOLUME 24

Number 1

TAKAKO OHSAWA	1	Age and cell density dependent changes of gangliosides in human diploid fibroblasts
CLAUDE SEBBAN, BRIGITTE TESOLIN, BERTRAND COULOMB and PAUL BERTHAUX	11	Comparative effects of almitrine and raubasine, singly and in combination, on electroencephalographic activity in young and old rats
YASUKO ISHIKAWA, MALCOM V. GEE, BRUCE J. BAUM and GEORGE S. ROTH	25	Decreased signal transduction in rat parotid cell aggregates during aging is not due to loss of alpha$_1$-adrenergic receptors
SARA ROCKWELL	37	Tumor radiation responses and tumor oxygenation in aging mice
YASUYUKI NOMURA, BEN-XIANG WANG, SHANG-BIN QI, TSUNEO NAMBA and SHUJI KANEKO	49	Biochemical changes related to aging in the senescence-accelerated mouse
HAROLD R. MASSIE, TREVOR R. WILLIAMS and LESLIE K. DEWOLFE	57	Changes in taurine in aging fruit flies and mice
ROBERT PRETZLAFF and ROBERT ARKING	67	Patterns of amino acid incorporation in long-lived genetic strains of *Drosophila melanogaster*
STEVEN N. AUSTAD	83	Life extension by dietary restriction in the bowl and doily spider, *Frontinella pyramitela*
	93	Forthcoming articles
	95	Announcements

Number 2

H.R. HIRSCH, J.A. COOMES and M. WITTEN	97	The waste-product theory of aging: Transformation to unlimited growth in cell cultures
MICHAEL C. LUCE and CLIVE L. BUNN	113	Decreased accuracy of protein synthesis in extracts from aging human diploid fibroblasts
DANIEL D. BANKSON, JEROME K. ELLIS and ROBERT M. RUSSELL	127	Effects of a vitamin-A-free diet on tissue vitamin A concentration and dark adaptation of aging rats

G. BENZI, F. MARZATICO, O. PASTORIS and R.F. VILLA — 137 Relationship between aging, drug treatment and the cerebral enzymatic antioxidant system

M. J. ROSENTHAL, M. VARELA, A. GARCIA and D. R. BRITTON — 149 Age-related changes in the motor response to environmental novelty in the rat

T. COLOMBO, M.G. DONELLI, R. URSO, S. DALLARDA, I. BARTOSEK and A. GUAITANI — 159 Doxorubicin toxicity and pharmacokinetics in old and young rats

173 Forthcoming articles

175 Announcement

Number 3

NANCY L. PERILLO, ROY L. WALFORD, MARGARET A. NEWMAN and RITA B. EFFROS — 177 Human T lymphocytes possess a limited in vitro life span

JOHANNES E. MENZEL and ATILLA DUNKY — 189 Inhibition of complement activation in aged individuals due to increased plasma fibronectin concentration

BRYAN R. DAVIS, EUGENE BAHNIUK, JEN KUAN YOUNG, CHRISTOPHER M. BARNARD and JOSEPH M. MANSOUR — 201 Age-dependent changes in the shear wave propagation through human skin

MARIO VERTECHY, MICHAEL B. COOPER, ORLANDO GHIRARDI and M. TERESA RAMACCI — 211 Antioxidant enzyme activities in heart and skeletal muscle of rats of different ages

A.S. JACKS, A.R. RICHARDSON and M.A. JONES — 219 A biochemical study of optic nerve myelin isolated by a micromethod from different aged rats

MAURO PROVINCIALI, MARIO MUZZIOLI and NICOLA FABRIS — 227 Timing of appearance and disappearance of IFN and IL-2 induced natura! immunity during ontogenetic development and aging

WAKO YUMURA, NOBUHIRO SUGINO, RYUJI NAGASAWA, SACHIHO KUBO, KATSUIKU HIROKAWA and NAOKI MARUYAMA — 237 Age-associated changes in renal glomeruli of mice

RYUJI HOSONO, SUEO NISHIMOTO and SIGERU KUNO — 251 Alterations of life span in the nematode *Caenorhabditis elegans* under monoxenic culture conditions

F.A. LINTS, C.V. LINTS, P. BULLENS, M. BOURGOIS, and J. DELINCE — 265 Unexplained variations in life span of the Oregon-R strain of *Drosophila melanogaster* over a four-year period

273 Forthcoming articles

275 Announcements

Number 4

DAVID W.E. SMITH and HUBER R. WARNER — 277 Review article: Does genotypic sex have a direct effect on longevity?

RICHARD HOCHSCHILD — 289 Improving the precision of biological age determinations. Part 1: A new approach to calculating biological age

RICHARD HOCHSCHILD — 301 Improving the precision of biological age determinations. Part 2: Automatic human tests, age norms and variability

I. ZS.-NAGY, M. OHTA and K. KITANI — 317 Effect of centrophenoxine and BCE-001 treatment on lateral diffusion of proteins in the hepatocyte plasma membrane as revealed by fluorescence recovery after photobleaching in rat liver smears

M.W. HILL and J. KARTHIGASAN — 331 Glucose metabolism and protein synthesis in stratified squamous epithelia from young and old mice

341 Forthcoming articles

345 Announcements

Numbers 5/6

Control of Cell Proliferation in Senescent Cells

HUBER R. WARNER and EUGENIA WANG — 347 Preface

Part I: Introduction

HUBER R. WARNER — 351 Introductory remarks

LEONARD HAYFLICK — 355 Antecedents of cell aging research

VINCENT J. CRISTOFALO, DAVID L. DOGGETT, KATHERINE M. BROOKS-FREDERICH and PAUL D. PHILLIPS — 367 Growth factors as probes of cell aging

Part II: Control of DNA Replication

JAMES R. SMITH and OLIVIA M. PEREIRA-SMITH — 377 Further studies on the genetic and biochemical basis of cellular senescence

William Pendergrass, John Angello and Thomas H. Norwood	383	The relationship between cell size, the activity of DNA polymerase α and proliferative activity in human diploid fibroblast-like cell cultures
D. Busbee, V. Sylvia, G. Curtin, S. Peng, V. Srivastava and R. Tilley	395	Age-related changes in DNA polymerase α expression
Monica Peacocke, Mina Yaar and Barbara A. Gilchrest	415	Interferon and the epidermis: Implications for cellular senescence
S. Michal Jazwinski, Nejat K. Egilmez and James B. Chen	423	Replication control and cellular life span
Frederick D. Coffman and Stanley Cohen	437	Aging and defective lymphoid cell activation
J. Fred Dice	451	Altered intracellular protein degradation in aging: A possible cause of proliferative arrest
S. Goldstein, S. Murano, H. Benes, E.J. Moerman, R.A. Jones, R. Thweatt, R.J. Shmookler Reis and B.H. Howard	461	Studies on the molecular-genetic basis of replicative senescence in Werner Syndrome and normal fibroblasts
Mark J. Neull, J. Keith McClung, James R. Smith and David B. Danner	469	Approach to the isolation of antiproliferative genes
T. Matsumura, F. Malik and R. Holliday	477	Levels of DNA methylation in diploid and SV40 transformed human fibroblasts
		Part III: Senescence-Related Changes in Gene Expression
Eugenia Wang, Ioannis K. Moutsatsos and Toshitsugu Nakamura	485	Cloning and molecular characterization of a cDNA clone to statin, a protein specifically expressed in nonproliferating quiescent and senescent fibroblasts
Tony Giordano, Don Kleinsek and Douglas N. Foster	501	Increase in abundance of a transcript hybridizing to elongation factor I alpha during cellular senescence and quiescence
Tara Seshadri and Judith Campisi	515	Growth-factor-inducible gene expression in senescent human fibroblasts
Kuang Yu Chen, Zee-Fen Chang, Jong-Hwei Pang, Guo-Shun He and Alice Y-C Liu	523	Polyamine metabolism and cell-cycle-dependent gene expression in IMR-90 human diploid fibroblasts during senescence in culture
Peter J. Hornsby, Robert F. Ryan and Charles Y. Cheng	539	Replicative senescence and differentiated gene expression in cultured adrenocortical cells
Albert J.T. Millis, Jane Sottile, Marian Hole, Daivd M. Mann and Verena Diemer	559	Collagenase production by early and late passage cultures of human fibroblasts
Elizabeth A. Cowles, Ioannis K. Moutsatsos, John L. Wang and Richard L. Anderson	577	Expression of carbohydrate binding protein 35 in human fibroblasts: Comparisons between cells with different proliferative capacities

587 Forthcoming articles

589 Acknowledgments

591 Announcements

595 Errata
